

Add advanced interaction controls to your HTML tables *the free & easy way*

Browser NPM

1 - Include these two files

CSS `//cdn.datatables.net/2.0.5/css/dataTables.`

JS `//cdn.datatables.net/2.0.5/js/dataTables.m`

2 - Initialise your DataTable:

```
1 let table = new DataTable('#myTable');
```

3 - You get a fully interactive table

What's new?

The latest news from the DataTables blog and around the web.

ITables v2

20th Mar 2024

Congratulations to Mac Wouts on the release of his ITables 2.0 software. It is an MIT licenses python package that renders Python DataFrames using DataTables.

DataTables 2!

15th Mar 2024

It is with real pleasure that I announce the general availability of DataTables 2. It has been a long time in coming, with aspects of its development starting in 2018, ...

Experiment: Import Maps

7th Mar 2023

With ES modules gaining traction throughout the entire Javascript ecosystem, it is natural to want to use them directly in the browser. We can do that through the `type="module"` attribute ...

Loaders for plug-ins

28th Feb 2023

Plug-ins are a very important part of the DataTables eco-system. They expand DataTables' capabilities, wrap common actions into simple functions and provide a way for code to be shared in ...

Editor 2.1

10th Feb 2023

I'm delighted to announce the immediate availability of Editor 2.1 and DataTables 1.13.2. Editor 2.1 is the culmination of months of tweaks, features and fixes, and you'll be able to see ...

.NET6 server-side processing

28th Jul 2022

David has updated his useful server-side processing library for .NET to support .NET6.

Vue3 component

22nd Jun 2022

Vue.js is a front-end Javascript framework that is widely used for creating reactive web-applications. It is consistently one of the most popular frameworks around, and in this post I will ...

RequireJS anyone?

20th Jun 2022

RequireJS is, in web-terms, an old technology now (some might say ancient), but it is still in wide use and there have been a number of questions about RequireJS and ...

Themes with DataTables

If you are looking for a quick way of creating stylish looking tables, integrated with the rest of your site, then there are a number of styling kits available which use DataTables.
